

SUPPORT DURING A TOUGH TIME

Many families will be finding this time tough for several reasons. Let us assure you, you are not alone. There are, however, people and organisations who would like to help. Glendenning PS has formed a connection with a couple who represent the Salvation Army for our area. Sandra and Ashish Pawar have been in contact with GPS for a while now. They are the couple who represent the Salvation Army when we have held our donation drives over the past couple of years. They would like to offer their support to our families during this time. You can contact them on 0438 834 532.

Additionally, the Salvation Army has a number of other ways they can support families during this time. Please see the information below.
